---------------	--------------------	------------------	---------------	--

How to use the worksheet:

- Positive logic diagram: What do we need to get it right? It works from a safe outcome in the top block back to the factors that must be in place to produce it.
- Negative logic diagram: What factors can impair the mission? Select a loss event into the top block and then identify what factors could produce it.
- Risk event logic diagram: What will be the outcome of a hazard? This variation selects a risk event to the top block and then examines the possible consequences of the event.
